ABOUT ME

Designing, producing and developing has been a passion of mine since childhood. And that passion led me to architecture. At the same time I started to develop code and engage in 3D art. I'm now an architect and I have a software project that I developed on augmented reality. And I'm ready to go all over the world with my suitcase. My main goal is don't lose that passion, to move architecture and modern technologies, one step ahead ...

WORK EXPERIENCE

● INTERNSHIP (2017-2018)

TURAN ALTINTAŞ DESIGN STUDIO

I've been active in 2 different projects. one of them was interior design and the other was exterior design project. Exterior design project was a public house project. in this project we had to change the whole project for a tree. It was a very good experience for me.

● INTERNSHIP & FREELANCER (2018-2019)

DBH GLOBAL BUILDING COMPANY

We implemented a school project. I trained one-on-one on the field. I experienced the implementation processes of the project in detail. also, this project was a special project out of the pain of engineering. It had a column-free gym with a length of 27 m. in the basement.

● Architect - Graphic Designer (2019-2020)

MEF YAPI INSAAT MUHENDISLIK

when I was still a student, I started working part-time. I've took the company's document editing. I did the graphics design and presentations. I've occasionally helped drawing projects.

● Architect & 3D Artist (2020)

MEF YAPI INSAAT MUHENDISLIK

I continue to work in this company as an assistant architect. at the same time, I work with 3D art in my spare time.

EDUCATION

Architecture & Design

Bachelor's degree / maltepe universty
2017-2021 January Istanbul
